Applicants will know the results of their applications in late May.

NUS Engineering Courses Annoucement

ICMIT 2008

ICMIT2008 is the 4th International Conference on Management of Innovation and Technology, first initiated by the IEEE Engineering Management Society Singapore Chapter in 2000. ICMIT2008 intends to bring together scholars, industrialists, and entrepreneurs interested in improving their research and development, and business applications in innovation and technology management across a global network of diverse platforms.

This conference will be held on 21-24 Sept 08 at Bangkok, Thailand.

Call for papers to this conference is now on. For more details about the call for papers and about the conference in detailed, please kindly visit the official website **HERE**.

Double Major in Management (Technology)
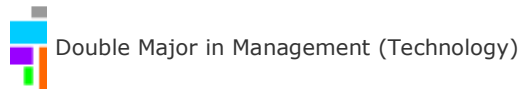

There will be a new double major programme open up to non-BBA NUS undergraduates starting from August 2007.

The Business School will offer the Major in Management (Technology) Programme ("Mgt(Tec) Major"), a Double (second) Major as part of NUS' Special Undergraduate Programmes, for students from all other faculties and schools. This Major is offered in conjunction with the Faculty of Engineering, the Faculty of Science, the Faculty of Arts and Social Sciences, and the School of Design and Environment.

Students may be admitted to the programme in one of the following ways:

- Application by invited students just after they had been offered admissions to NUS, OR
- Application by students during their first or second year of study.

For more details of the programme, please visit the NUS Business School website **HERE**.

Invitation to apply for tenure-track positions

We invite applications for Assistant Professor (tenure-track) positions in the areas of R&D Management, systems engineering, knowledge management and intellectual property management. Outstanding individuals whose specializations do not fall exactly within the above areas, but feel that they can contribute to the Centre, are also encouraged to apply.

Please kindly click **HERE** for more information on how to apply.

Call For Papers

IEEE Transactions on Engineering Management

Special issue on "Managing Innovation in Emerging Economies"

For more information, please refer to the **News** section, or you can click **HERE**.
