A aluna de Pós Graduação da *Universidade de São Paulo (USP)* *Gizele Nicoletti* vem por meio deste solicitar a participação de seu filho (a) em sua pesquisa *Inventário das ações motoras de crianças pré-escolares no playground*. Esta pesquisa tem como objetivo investigar as possíveis relações entre o contexto físico e social na realização de movimento de crianças num ambiente escolar.

A aluna se compromete a manter sigilo absoluto sobre identidade das crianças nos resultados do estudo. Nesta pesquisa, a criança será filmada enquanto brinca no playground. A filmagem faz-se necessária para posterior análise das ações utilizadas no playground. As imagens geradas durante a pesquisa não serão, em hipótese alguma, divulgadas, e após o término das análises elas serão destruídas.
